## 6. Remarks and Other Relevant Information:

Immediate authorization is requested to continue irrigating Arrowleaf Lots 1A, 1B, 2 and 4 after the Methow River instream flow cutoff; this seasonal change will prevent injury or loss to new native grass and shrub plantings for conservation/restoration of meadows and wildlife enhancement purposes. This project is consistent with the Arrowleaf stewardship plan prepared by the Trust for Public Land, which, along with the Washington Department of Fish & Wildlife, supports and manages open space covenants on the Arrowleaf parcels proposed for continued irrigation.

**This is an emergency drought application due to a state-declared drought emergency. The applicant's existing water rights are restricted due to instream flow limitations. New conservation plantings will not survive without immediate approval of this seasonal transfer. Telephonic approval is requested at the earliest opportunity.**
